Battle Against Water Famine Is Won

Nevada City Firemen Lead Mass Attack on Snow Mt. Ditch

FORTY MEN ON JOB TODAY

Sixty Volunteers Clear Waterway for Four Miles above Slate Creek

Led by Nevada City's fire department, over 60 men, voluntering to break this city's water famine, armed with shovels yesterday attacked the snow filled ditches of the Nevada Irrigation district. With might and main from 9 o'clock in the morning until 4 o'clock in the afternoon these men cleared the four miles of ditch, from Slate Creek to Scotts Flat and above, sufficiently to let the water through when it comes.

Myers Mobley, who assisted in marshalling the volunteers, reports that made water from snow banks and from water ways opening up through the snow amounted to almost 80 inches during the peak of the flow yesterday. This emptied into Sugar Loaf reservoir.

Forty Working Today

This morning another contingent of 40 volunteers mounted on a sled, for which the Nevada County Lumber company donated the lumber and the Miners' Foundry, the steel, and which was built yesterdy, and hauled by one the county's "cats," provided by Supervisor Cary Arbogast, were taken out to the ditch and are working from Scott's Flat to meet a force of N. I. D men who are gradually clearing the ditch west from Deer Creek. It is expected that late this afternoon the two crews will meet about three miles above Scott's Flat and that by nightfall a good head of water from the Snow Mountain ditch will be pouring into Sugar Loaf reservoir.

Fire Laddies Leading

Every last member Nevada City's fire fighting forces were present in yesterday's battle to clear the Snow Mountain ditch. All those concerned in the leadership of these civic battalions, fighting to save this city from the menace of fire and epidemic, had the highest praise for the orderly arrangements made for transporting the men two and from their work, for feeding them, and equipping them with the tools wherewith to do their job.

At a mass meeting Friday night in the Elk's club rooms plans were matured for the attack on the ditches. Under the chairmanship of Richard L. Bigelow, the 100 people there expressed a determination to make an immediate effort to free Snow Mountain ditch and bring the water to this city.

This resolution was taken despite reports from the N. I. D. that probably 50 inches of water would be flowing in Sugar Loaf reservoir by Saturday night. Doubt was expressed concerning the accuracy of this forecast, since for over two weeks this city, from day to day, had been led to anticipate relief.

Dr. A. H. Tickell in a brief address called attention to the condition which threatens this city with an epidemic. He urged that every effort be made to bring water in as quickly as humanly posible.

Among the speakers who urged immediate action were City Clerk G. Calanan, R. R. Coyne, former chief of the fire department, Carfield Robson, E. J. Kilroy, Meyers Mobley, and many others.

SUPERVISOR AIDS

Supervisor Cary Arbogast offered to take as many men as possible out to the scene of action on the counties sled hauled by a "cat," and R. L. Bigelow offered to provide shovels and as many axes as necessary from U. S. F. S..

Those who volunteered for the work Saturday were:

Ed. Dean, Clarence Martz, Carfield Robson, R. J. Bennetts, Luther Marsh, George H. Calanan, Gus Orzalli, George W. Jones, Calr Tobiassen, Alfred Eddy, Byron Landrigan, Walter Hegarty, R. A. Eddy, T. N. Coan, Dr. John R. Ivey, Robert Nye, Chester White, Miles D. Coughlin, Carl J. Erickson.

Ski Men Explore Ditch

A group of experienced ski men, Alfred Eddy, Byron Landrigan, Clarance Martz and Carl Erickson, volunteered to go to the head of the ditch and ascertain the conditions there.

The committee to take charge of all arrangements, appointed by Chairman Bigelow, consisted of Garfield Robson, chairman; E. J. Kilroy, W. M. Gracey, Supervisor C. S. Arbogast, George H. Calanan, R. J. Bennetts, Howard Penrose, M. D. Coughlin, Byron Landrigan, Myers Mobley.

Women Prepare Food

Acommitte of women, also named by Chairman Bigelow, on Saturday evening prepared lunches and hot coffee for the volunteers, using the facilities of the Elk's club kitchen for that purpose, this committee consisted of:

Mrs. W. L. Mobley, Miss Gertrude Goyne, Mrs. R. J. Bennetts, Mrs. B. Douglas and Mrs. C. A. Bennetts.

SATURDAY'S FORCES

Saturday the group of fifteen, who had volunteered the night before, met at the Plaza and spent a hard day scouting the work to be done yesterday and doing much preliminary labor.

Yesterday saw the small army of volunteers out at 8 o'clock and on their way.

Today nearly 40 men were again on the job and it is confidentaly expected that this evening water from Snow Mountain amounting to at least 200 inches will be flowing into Sugar Loaf reservoir.

A group of business and professional men including Mayor R. J. Bennetts, while unable to go themselves hired substitutes to take their places in the snow shoveling platoons.

THOSE WHO VOLUNTEERED

The following are the volunteers who worked on the Snow Mountain ditch yesterday. If any names have been omitted, Meyers Mobley declares, it is because they failed to register with him in the morning.

(Continued on page four)

One Hundred Inches of Water Soon to Flow into Sugar Loaf

N. I. D. FORCES RUSH WORK

Menace of Epidemic and Fire In Nevada City At Last Dispelled

Five hundred inches of water are now flowing in the Cascade ditch at Canada Hill and a big stream has been diverted into the city reservoir. This is the statement Will Durbrow, manager of the Nevada Irrigation district, made over the phone this afternoon in response to the Nugget's inquiry. Not only that, but 900 inches are on the way and unless further blockades in the way of snow slides occur to check the stream, both Nevada City and Grass Valley will have plenty of water within a few hours.

Mayor R. J. Bennetts this morning stated that there will soon be available for the Canada Hill reservoir 100 inches of water from the Cascade ditch. This will be turned in as soon as the current can be freed of ice. At the same time 200 inches of water are now flowing toward Grass Valley and should reach reservoirs in that city very shortly.

Manager Durbrow stated that 50 men have been steadily employed clearing the way for the water in the Cascade ditch. These men are divided into four crews, and have worked devotedly to bring the water through.

On the Snow Mountain ditch today 16 men were employed. Mr. Durbrow expressed his appreciation of the splendid civic spirit displayed by Nevada City people, under the leadership of the fire department, who have helped to clear the Snow Mountain ditch.

He stated that he had kept a force of nearly 50 men at work on the Snow Mountain ditch until the last storm when it semed vital that all forces should be directed to clearing the Cascade ditch from which both Grass Valley and Nevada City draw their domestic water supplies.

THANKS

We, the officers and members of the Nevada City Fire Department, wish to express our heartfelt gratitude to all loyal citizens who in anyway have assisted us in carrying on this war against the water famine.

The fine spirit of co-operation displayed will remain as an inspiring example to us in our future work for the welfare of this city. While we are proud of the job we sponsored, we realize that without the unanimous help from all citizens it could never have been carried out. We thank you.

NEVADA CITY FIRE DEPARTMENT

RECALL ELECTION TO COST NEV. CO. $850, ESTIMATE

SACRAMENTO, Feb. 6—(UP)—A recall election would cost Nevada county approximately $850, according to an estimate prepared by Rolland A. Vandegrift, state director of finance.

The estimate is based on an election cost of $80 per thousand population and for the entire state would require the expenditure of between $500,000 and $600,000, it is claimed.

As computed by Vandergrift, the county cost would range from $50 for Alpine to as high as $178,300 for Los Angeles county.

Compilation of election costs represents the most recent move on the part of the administration to fight the recall of Governor Rolph as proposed by George Sehlmeyer, master o fthe state Grange.

In announcing the figures, Vandegrift said:

"Every citizen and taxpayer should realize that if he signs a recall petition in the name of economy he is, in fact, signing for an increased tax burden of more than one-half million dollars. When taxpayers realize this they should mete out a stinging repudiation to those fostering this recall."

In answer to this argument, Sehlmeyer said the expense of the recall election would be "justified in this case."

BULLDOZER AND OLD SOL CLEARING BROAD ST.

The U. S. forest service today cleared the street in front of the post office and incidentally took away the pile of snow in front of the National hotel. The work is being done with the government bulldozer. This puts the National hotel pile of snow out of the running as far as size is concerned and leaves the one in front of the Nugget office as the champion of the street.

In the meantime old Sol is doing considerable snow clearing on his own hook and Sol does his work without so much as one cough from his exhaust.

Former Resident of San Juan Ridge Dead

Friends in North Columbia have been apprised of the death of Martin Meehan, old time resident of Cherokee on San Juan Ridge. He died in his San Pedro Saturday. He was formerly engaged in mining on San Juan Ridge. He is survived by his wife, Mrs. Mary Meehan, and a daughter, Miss Florence Meehan.

N. Gus Segestrand is Borne to Eternal Rest

Funeral services were held Saturday afternoon under direction of W. R. Jefford & Son, for the late N. Gus Segestrand, who died February 2 in his home on Pet Hill. Segestrand leaves a wife Mrs. Sene Segestrand and a number of nieces and nephews. The Rev. A. L. Pratt of the Grass Valley Methodist church officiated. Interment was in Greenwood cemetery.

DAN CUPID BUSY IN NEVADA CITY

SACRAMENTO, Feb. 6—(UP)—A combination of California's "gin marriage law" and the depression has proved too much for Dan Cupid.

According to the state department of public health fewer marriages were performed in California last year than during any single year since 1919.

The total number of marriages for 1932 was 43,164, a decrease of 4,357 under the previous year's total.

In Nevada county, 48 couples said "I do" last year, as compared to 33 in 1931, the department reported.

Despite the general trend toward fewer marriages, 14 California counties reported increases in marital ceremonies including Butte, Calaveras, Colusa, El Dorado, Lake Mariposa, Mendocino, Modoc, Napa, Nevada, Santa Cruz, Shasta Sierra and Siskiyou.

The total increase in these counties, however, amounted to only 127, while the losses in the largest centers of populations are "conspicuous," the report pointed out.

There were, for instance, 1,685 fewer marriages in Los Angelos county in 1932 as compared to 1931 and 616 fewer in San Francisco.

COUNTY ANGLERS PAY $4,293 FEES

SACRAMENTO, Feb. 5.—(U.P.)—Despite a slight decrease in the number of licenses issued, fishing still is one of the most popular sports of California.

A total of 242,394 angling licenses were issued in the year to bring in receipts amounting to $496,390, as compared to 249,319 licenses and $508,875 in receipts, according to the annual report of the state division of fish and gabe taoinhrdlujp sion of fish and game.

Of the total collections for angling licenses, Nevada County fisherman paid $4,293.

25 FISH HATCHERIES

As a possible explanation of the continued popularity of fishing in the state, the division report reveals that the bureau of fish culture has been operating 25 hatcheries, two tank stations, 30 egg taking stations and 78 aging and brood ponds.

From the hatcheries approximately 68,000,000 trout and more than 999,000,000 salmon were planted in the last two-year period.

The bureau also has continued the program of raicing fish to larger sizes, and during the biennium about 390,000 trout ranging from 5 to 9 inches in length were planted from rearing ponds, the report said.

IF FISH WERE HENS

While 62,000,000 eggs were collected from wild fish and 22,000,000 from domestic broods, it still was neccessary to purchase nearly 17,000,000 eggs during the period, the report said.

"There is great danger of infecting our hatcheries and streams with fish diseases from imported eggs so the desirability of developing a source of supply from within the state and entirely under the control of the fish and game commission is apparent."

While revenues have decreased, "the necessity of abandoning valuable works have been avoided by careful management," the report also claimed.

SCHOOLS WILL OPEN WEDNESDAY

With water adequate to sanitary needs now assured, the Nevada City high and grammar schools will open Wednesday morning. This was the decision reached this morning at a conference of the school directors.

It is urged that each student to either high or grammar school take with his lunch a bottle of boiled water from home. This is to avoid any danger that the water now in the mains may be polluted by surface water, draining into the ditches that feed the resrevoirs.

School Board Of Grass Valley Sued For $50,086

Alleging incompetence on the part of an instructor in the Grass Valley high school, which resulted in amputation of parts of three fingers of his right hand, William E. Frye, a student in the printing trades class, has brought suit against the Grass Valley Board of Education for $50,086. His attorney is O. E. Winburn of Grass Valley.

The complaint alleges the platen press on which the boy was working was improperly equipped; that on February 9, 1932, the boy while printing large sheets, was obliged to take unusual risks in operating the press, and caught his right hand in it, crushing three fingers.

It is alleged that instead of affixing gauge pins upon the tympan, the instructor J. B. Underwood had glued upon it some eight point quads which failed to hold the paper properly in place for the impression. This resulted in the paper slipping and the boy was obliged to reach further for the paper, with the result that his hand was caught in the press before the paper could be retrieved.

It is alleged that hospital expenses came to $26 for three days and that the surgeon's fee for two operations, was $60. The sum of $50,000 is asked in damages for the disfigurement and the permanent crippling of the boy's right hand.

GAS TAX SHARE OF COUNTY $5,946

SACRAMENTO, Feb. 6—(UP)—Nevada county will receive $5,946 as its share of California's $3,101,266 gasoline tax apportionment for the last three months of 1932.

This announcement was made public by State Controller Ray L. Riley, who said that the amount to be distributed among the 58 counties of California from the tax revenue would be $3,033,766.

Revenue from the 3-cent per gallon tax imposed by the state is divided on a three-way basis, it is explained. One cent goes to the various counties to be expended on maintenance of county roads. One cent goes to the state to be used exclusively for the construction of new paved roads, and one cent goes to the state for maintenance of roads.

"The apportionment to counties for the quarter showed a slight decrease," Riley said. "This amounts to less than one per cent, as compared with the last quarter of 1931 when the counties received $3,054,911."

ALLEGHANY HIT BY $10,000 FIRE

With water facilities totally inadequate to cope with the flames, a $10,000 fire occured Saturday morning at 9 o'clock in Alleghany. Swept to ruin by the blaze were the historic Odd Fellows hall, the residences of Jack Pollard and Dr. W. B. Hardy and a garage belonging to Pollard. Two automobiles in the garage were destroyed.

Some of the furniture of the Odd Fellows hall and the Pollard residence wer esaved, but little could be taken from Dr. Hardy's home. Two men sleeping in upper story of Dr. Hardy's home narrowly escaped with their lives.

Mail Carrier, Who Lost Mule, Digs Out His Car

LOG CABIN, Feb. 6—The dependable stage driver between Camptonville, Log Cabin and Dobbins, who lost his mule last week, has with the help of Joe Halkyard started to open up the road from his stalled stage to the Iron Phone where he will try to bring the marooned stage down through Moonshine via Kelly's and Borteches ranch to Freemans Crossing and then to Camptonville. This route is now being operated via G. V. and Smartsville until the Log Cabin and Dobbins road can be cleared of snow. Gene and Joe shoveled two miles of road Saturday and expect to get the old buss into Camptonville sometime Sunday.

Miss Bernice M. Clemo will move back to her home on East Bennett street in Grass Valley this afternoon after a three weeks visit with Mr. and Mrs. A. V. Sauvee of this city. Miss Clemo is a sister to Mrs. Sauvee and has been staying in Nevada City because of the difficult commuting problems that have presented themselves since the big snowfall.

SOLONS PROPOSE SCHOOL DISTRICT CONSOLIDATION

SACRAMENTO, Feb. 6—(UP)—Elementary school districts of nevada county would be merged with existing high school districts under a proposed plan now before the legislature.

The bill was introduced by Assemblyman B. J. Feigenbaum, San Francisco.

Primarily it is intended to reduce the number of elementary and secondary districts, which now total 3,600, to the number of high school districts, 297.

"Adoption of a large unit of school district administration is a sound method of attaining economy," Feigenbaum said. "It will result in centralization of administration and concentration of fiscal authority."

The bill sets up 297 school districts which would include all existing elementary and secondary schools which lie within present high school boundaries, together with neighboring elementary school districts which are not now within any high school district.

"Each new consilidated district would be administered by an elected board of trustees," Freigenbaum said. "To insure equitable representation of all parts of the district upon the board of trustees the county superintendent of schools is empowered to divide the district into election precincts equal in number to the number oftrustees and from each of which one trustee shall be elected.

MAIL SERVICE IS NEARLY NORMAL

The condition governing the despatch and receipt of mails has greatly improved, according to Postmaster Scadden. The Narrow Gauge on Saturday brought in the first through train from Colfax carrying the afternoon mail. Hereafter the old schedule will be regularly resumed. Mails leave this city for San Francisco and the East at 4:45 a. m. and 3 o'clock p. m. Mails arrive from those points at 8:30 a. m. 2:30 p. m. and 6:30 p. m.

Mails to Alleghany leave Nevada City postoffice at 7 a. m. and arrive there about 5 p. m. They are taken to Tyler in a truck, there loaded on a snowmobile to Foote's Crossing, there relayed by horses and sleigh to Red Ledge and thence by skis to Alleghany.

French Corral mail leaves Nevada City at 12 o'clock by motor and gets there an hour later.

San Juan mail also leaves at 12 o'clock and reaches there by 1:30 p.

Truck, sleigh and skis are used to get mails to North Bloomfield, Snow Tent and Graniteville.

Mails for Washington leave Nevada City at 7:00 a. m. are taken the Ski Course by truck and the rest of the way by horses and sleigh, arriving at Washington shortly before 12 o'clock.

1933 Democracy

By ERNEST DE PRATI

Co. E. First Cavalry Cal. Vol. 1865.

High destiny lies in Democratic hands
Our needs are countless as the ocean sands.
To Columbia's freedom e'er be true
With Old Glory twining stars, bars, and blue.
The son of those, who clashed in battle tide
Now fight and work as brothers side by side.
Democracy now has the chance,
Victory to gain without sword or lance.
A bright beacon for all the world to see—
A land of justice, peace and true equality.
Let Roosevelt's and Garner's name be known through the earth,
As those who gave the land of Washington new birth.
Save from Graft and Depression our loved land,
And made all our citizens one patriotic band,
Our motto Excelsior.

By ERNEST DE PRATI
Sacramento Democratic Committee

Democracy now is the lock which opens Columbia's door to prosperity, closed and ruined by the clumsy and unskilled manipulations of the Republican predecessors.

Two honest and skillful craftsmen Roosevelt and Garner, now in possession of the lock with the assistance of their Democratic Colleagues assisted by a few of the ablest of the Republican Party will so reconstruct the lock and repair it's broken and bent parts, then fashion a key to unlock the door to prosperity, adding oil to grease the rusty parts caused by years of unskilled attempts to open it by the Republican Party. Honesty and Justice will be the watch-word of the Democratic Party. The up-holding of true American ideals, their aim is equality before the law, and the passing of such laws that are wanted by and for the people; giving work to the laborer and the mechanic; a market to the farmer; trade to the business man; and complete care for the defenders of our country.

The frozen assets of our banks will be thawed by the influx of coin into their vaults, and by their loans to the manufacturers, new avenues of industries are opened up.

No party ever held the power that Democracy now holds, and no leaders who will use it with greater wisdom and tact. They have the most difficult task before them, but the reward to the Party will be the greatest ever known, opening America from the direst depression to years of peace, plenty, and happiness.

The names of Roosevelt and Garner will shine with those of Washington and Lincoln.

Then will be proved to all the world that (Vox populi Vox dei).

THE KEY TO PROSPERITY

Annual prohibition.

Restore the revenue laws as before.

Each state make it's own liquor laws.

Better class of saloons. Do not sell to drunken men.

The deadfalls where criminals congregate, the police would be able to look for them there.

Remonetizing silver will open the mines and give men employment by thousands. We cannot have too much money. Silver must be legal tender for all debts past, present, and future. It must be received in payment of taxes, imports and export duty, and internal revenue.

We will then have the trade of the world. Mexico, South America, and all other countries will be our customers. The banks will be overflowing with money, and we will have no more frozen assets. Whatever they lose on the parity of gold and silver will be more then doubled by the remonetizing of silver. They will have money to loan to the manufacturers, new factories will spring up, and the merchant and all who work will have plenty of money to buy anything they desire.

Today there is goods of all description for sale ,but no one has any money to buy them.

The gold mines will not be affected for they will buy all their powder, fuse, etc., with silver and also pay their men with silver.

Wages will remain at the same level which will save all labor problems.

Issue $5,000,000,000. in bonds, payable in legal tender 25 years from date at four per cent interest. The next generation will be doubled by that time. All this money will go into channels of trade.

This generation has paid off enough of the war debts in both money and life.

Let us hope that never again will a soldier be sent from American shores. Let all our laws be liberal and just, and let them be administered to the letter, and the party who accomplishes this will be in power for maany, many years.

WEEKLY COMMENT

By Christian Andersen

Pardon the personal palaver about to exude.

By choice for seven years I have lived in what is termed by people from the crowded centers as the hinterland. The first consciousness of a love for country towns and the folks who live there came as a surprise because previously I had lived in large cities on both coasts and in the middle s tates. However the longer I live in provincial surroundings the more sure I am that if it is possible my days will be spent in the country. Perhaps it is too much effort to understand the faster tempo of the cities or some equaly silly idea, anyway I like to live in the country.

Have taken the storms of the last two weeks as an adventure, altho it was necessary for me to be out in it most of the time with my family entirely snowbound, we nevertheless felt no mental s train at being shut in and since E. "Jupe Pluce" has for the time being, ceased pushing the snow and other wet things from his bag of tricks, isn't the sunshine just glorious?

To hear the "gentleman" James Corbett is ill in New York will saddden many. Corbett was one of the elite of the old resined canvas square, generous, picturesque, and not to be forgotten. A gentleman all the way through. His life has been an inspiration to many.

Fred Bonfils of the Denver Post is dead. It was my privelege to know him. With the late H. H. Tammen he developed the Denver Post to a circulation average of at least 300,000 daily. A paper with such circulation wields tremendous power and in the hands of any one less scrupulous that Mr. Bonfils would be a weapon which could do much wrong.

Disregarding errors of judgment, Fonfils and his Post became a power for the good of the state. The inscription over the entrance to the Denver Post building reads as follows: Oh justice; when from other habitations expelled—make this thy dwelling place—she did.

The French throne was put away in storage when the French Revolution started and we opine that it will be rather decrepit from disuse these long years. Yet here is a Duc De Guise seeking it. Gosh! What grand optimists these French must be.

Just made a rather hasty paper estimate of the buying power of 12 stores between here and Downieville and including Downieville. My estimate is not very far wrong.

These stores collectively will do a retail business of nearly $150,000 per year.

I am not a lover of platitudes, still some have value as entertainment. I quote: "There are lots of blanks to be drawn, so if you get one don't be disgruntled—it will not do a bit of good. Just take what comes and smile.

MINING CLAIMS ARE STAKED OUT IN SNOW

CAMPTONVILLE, Feb. 3.—The mining spirit is still in the air, regardless of weather conditions. Two days ago, Joseph Rogers and his wife, who are camped in a recently built cabin on Oregon Creek on the Pike-Camptonville road, took to the snow, and upon six feet of heavily packed snow, staked out and posted notices on a new mining claim in that vicinity. One would hardly believe that anyone would jump or locate in such weather but Rogers took no chances, and everyon will concede that anyone staking out a claim in six feet of snow is welcome to it, and more power to him. Rogers is a Spanish American veteran and has been in this section off and on for several years.

MONEY UNDEROOT

MAXWELL, —(U.P.) One hour after Ernest Abel lost a $10 bill, he returned to the local postoffice and found the money under the foot of a customer.

HENS KEEP PIG WARM

Editor, Child Life Magazine.

I met Bill's father today.

"Bill's six years old," he said. "He's a hard-headed young man and he treats fairy tales with a withering contempt. He likes real stories. He likes simple books about how things happen. Are there any new books that will fit Bill?"

Marjorie Barrows

I gave him the names of several new ones, for there are lots of Bills in America today and many authors are writing just the sort of books they like.

Real Adventure Best.

If your Bill doesn't take to fairy tales, to legends, to fables, don't force them on him. Offer him instead Charlotte Kuh's delightful "A Train, A Boat, and an Island"—the story of a real family's real trip to Bermuda. Offer him Heluiz Washburne's fascinating "Letters to Channy"—a real mother's letters of a trip around the world written for her own little boy back home. Offer him "The Pilgrim's Party" or "The Cruise of Mr. Christopher Columbus" by Sadybeth and Anson Lowitz, two humorous and very interesting picture books that acquaint younger readers with stirring history.

Perhaps Bill wants to know more about motormen and firemen and what they really do. Mrs. Kuh's books for small children will help him out there. Perhaps he would like "How It All Began," a book that is delightfully written and illustrated by Janet Smalley. It will tell Bill how primitive man watched the lightning and found he, too, could make fire by twirling two sticks around together. Later man found other ways of heating and lighting and at last we got our matches, gas, oil and electricity. The book goes on, in the simplest fashion, to show the beginnings of messages, of travel, clothing, houses. It is a thrilling sort of real fairy tale that particularly appeals to boys like Bill.

Travel Stories Are Good.

What happens to a real letter after it gets posted may also interest some of our very youngest readers. William Siegel, a Russian artist, tells a simple story about that in "Around the World in a Mailbag." Bob and Betty's letter to their father doesn't reach him in San Francisco. So it is forwarded to China, Russia, France, and even to Egypt. But though the various postmen do their best the letter does not finally reach him until he is back in New York again. The pictures make this book especially attractive.

Here are just a few of the new books for fairy-tale-strikers. Many more are to be found in the libraries and bookstores. Just exactly the book your Bill is looking for is waiting for him there. And it is just the right book for him at the present time.

Take him along and let him help find it!

FIND GOLD

Old prospector perfects sure method of locating gold and silver. Two years tests under every condition, both on top and underneath the ground has absolutely proven the efficacy of these detectors in every case. Old prospector says, "These will locate gold for you in 10 minutes where otherwise it might take a year without them. With so many prospecting these days, it pays to have these extra eyes that see underneath rocks and rivers and make the biggest finds. Hundreds of thousands of dollars in gold is available to ambitious miners who go after it intelligently and equipped with these gold finders." You can't go wrong by using a prospector's invention and if you don't like it we will refund your money. Send $1.50 for small size or $3 for the standard size and illustrated booklet.

TAHOE AREA SCOUTS TO RALLY IN ROSEVILLE

One of the biggest meetings, at least from an attandence standpoint of the Cub Scout troup No. 2 of Nevada City, was held in the regular meeting place, Foresters hall, Saturday afternoon. Including two Boy Scouts and four non-members, there were 16 present during the nearly two hour meeting and all participated strenously in the games and exercises.

The seventh annual Scout Rally for the Tahoe Area Council, Boy Scouts of America, is to take place in the Roseville high school gymnasium Saturday. February 11. The Boy Scout troop and Cub Scout troop o fthis city are expected to be present and take their place in the ceremonyies. The doors will be open for the exhibits at 6:45 p. m. with a band concert given by the Roseville Boy Scout troop at 7:30. All Scouts are to be there ready to take their places by 7:50. From then on until 10 o'clock the varied program will be run off in jig time. Contests and exhibitions of Scout work will take the major places in the evenings entertainment. Parents and interested adults are invited.

County Assessor Fixes Tax on 4,000 Motor Cars

County Assessor J. M. Hammill and his deputies are today checking over the lists of autos for which Nevada county residents have received licenses. The lists were received from the State Vehicle Department. The value of cars licensed, some 4,000 of them in this county, will be ascertained and on March 6, cards will be mailed to the owners, setting forth the amount of the tax.

A SUPPER TO SING FOR!

If the sugar-plum tree should come to life!

And honey-dew come from the magic pitcher—wouldn't supper times be jolly for five and seven years olds!

A supper that has all the charm of the sugar-plums and the honey-dew has for dessert a cup of crushed canned pineapple, cool and sweet. Never was anything so good to eat nor so good for growing boys and girls. For nutritional research has recently found canned pineapple to be a valuable source of five minerals, essential to health, as well as a valuable source of vitamins A, B, and C—a discovery that makes the task of mothers much simpler. The delicate flavor and color of pineapple are especially appealing to children. Pineapple is a food which rightly belongs in their own world of magic goodness. When it is served simply—a generous bowlful of crushed pineapple—it is a treat which young Mary and Johnny find suited to their most epicurean tastes. Two slices a day or a cup of crushed fruit is the amount recommended to aid in the maintenance of health and growth.

Our Correspondents

CAMPTONVILLE

CAMPTONVILLE, Jan. 30,—William Groves arrived Friday from Auburn to spend a few days at his home here.

Walter Butz of Nevada City, passed through Saturday enroute to the upper country.

William A. Lang, proprietor of the Lang Garage returned a short time ago from an extended visit at Sacramento.

A. A. Wallis arrived Saturday from a visit with relatives at Burlingame.

N. E. Whittum, went down on the Pacific Telephone and Telegraph lines Saturday, the line being out of order between here and Nevada City.

Charles J. Scanlan, Jr., came in from Indian Hill Saturday, reported eleven feet of snow at that place.

Alvin Kennady arrived Sunday from Oroville, enroute to Sierra City, stopped off for a few days to visit relatives.

Alton Loescher and Winot Ridell snow shoed down from Sleighville House Monday, reported nine feet of snow at that place.

Henry Weiman of Marysville came in Monday assisting Mr. Kellogg bringing in the Marysville stage.

CAMPTONVILLE, Feb. 2—Hector M. Dyer, of Indian Hill mine returned Wednesday from a short business visit to Oakland.

Erle Pauly arrived Wednesday from Auburn on a day's visit with his parents.

Si Perkins of the Telephone Company force of Grass Valley was in town the last few days working on the telephone lines.

Mr. and Mrs. Fred C. Kendall, left Wednesday for Mountain View, called there by the illness of his sister, Mrs. Josephine Lampel.

Mr. and Mrs. Thomas Williams, of Dobbins, arrived Wednesday on a short visit with relatives in this section.

HAT, CLUE TO THUG

LOS ANGELES,— (U.P.) H. J. Hughes knows his own hat. So when he saw a man wearing it a few hours after he had been slugged, he called a cop and had the man, R. M. Hooper arrested.

LOG CABIN

LOG CABIN, Feb 6—Mr. and Mrs. J. A. Rusaw of Log Cabin have been in Los Angeles since last September. Mr. Rusaw has been taking treatments at the veterans hospital there. The Rusaws returned to their home on the former Redmen ranch Thursday and found the snow too deep to get through, they have rented a cabin temporarily.

Peter Klenzendorf, Harold Beresford, Leo Girot, E. Keily and Frank Rossi came to Log Cabin Saturday, they report plenty of snow on Rebel Ridge and tough going.

Chas. Wilson Jr., and James Joubert came up Saturday to spend the week end with their folks, returning Sunday to resume their studies in Sacramento.

Mandus Carson is making fine progress on his new home. He expects to move in to it with his family by February 15.

LOG CABIN, Feb. 6—Viola Klenzendorf together with Bill Kessler spent Sunday at Mandus Carlsons Ranch making skis so they could get back home. The snow is still about two feet deep and too rotten to go through without skis, they arrived at the Log Cabin at 11 a. m. after walking four miles and they were pretty tired when they arrived.

LOG CABIN MAY BECOME SIERRA HEALTH RESORT

LOG CABIN, Feb. 6—Mr. Vance Starks has just completed a new entrance to the former De Nike place, making it more accessible to the highway the former entrance being at 19 per cent grade the new one is cut down to one-half. While Mr. Starks is a comparative newcomer in this section, yet his father was a pioneer in Sierra City, having landed there via ox team from Missouri. As Mr. Starks sees it, there is a big future in store here. Climate and beauty of scenery will play a big part to attract the newcomer. In as much as the exodus from the city has started and it must of a necessity go to the open spaces. Health abounds here as the hardy mountaineers readily attest.

While the recent snowstorm may have worked hardships on the few unprepared and those in remote places yet it insures an abundance of water supply for the coming season.

Log Cabin, Mr. Starks thinks, being a junction makes it a logical point for a new colony in fact a new town site.

KNIFE WIELDER SENTENCED

Joe Marino, who pled guilty two weeks ago to assault with a deadly weapon, was sentenced by Judge Raglan Tuttle to an indeterminate term in San Quentin. His plea for probation was denied following the report of A. W. McGagin, probation officer, who did not recommend it. Marino attacked Frank Johnson at Red Rock with a knife. No motive for the deed was ever established. Deputy Sheriff Bill Richard took Marino to San Quentin this morning.

CAMPTONVILLE'S HEROIC DEAD WILL BE HONORED

CAMPTONVILLE, Feb. 3—Acton M. Cleveland, has been working during the past few months in securing headstones for old soldier's graves in the local cemetery, has been able to get two from the War Department, one for the grave of John Purcell and the other for Charles O'Hara. It would be an easy matter to get a stone for the remaining graves, but he has no way to identify the soldiers so that the goverpment can verify their service.

He has exhausted every means he knows, and appeals to others in the locality if such information be had, to give him any data what ever relative to the service of the following Civil War Veterans: James H. Robinson; William Crawford, John McNulty, Thomas Waterman Green, and Theodore or Thomas Roach. At present, none of the old soldier's graves are marked, and within a few years, those who know where they are will be gone, and the graves will become unknown. The two two stones which have been granted will be shipped to Edward I. Pynchon of Oroville, Granite and Marble dealer there, who does work in this section, who will put the stones up the next time he does work in the local cemetery, without charge.

WEATHER CONDITIONS AT CAMPTONVILLE IMPROVE

CAMPTONVILLE, Feb. 3.—Clear sky during the morning of the second indicated that, providing he could get through the snow, the ground hog saw his shadow and returned to earth to spend another 6 weeks in hibernation.

The monthly weather report for January compiled by the local observer for the government, Elmer S. R. Hall, shows a total precipitation of 13.13 inches, with a total snowfall of 107 inches ,on the 31st., there being 59 inches of well packed snow on the ground. Meximum temparature on the 8th read 66 degrees, and minimum on the 30th, 20 degrees. The total rainfall for the year from September 1st to January 31st., is 24.61 inches, still quite below normal.

Frank Clark, Nevada Ciy mining engineer, was down town today much improved after a three day attack

LOCAL HAPPENINGS

W. G. Richards, who has been, so seriously ill, is recovering.

After several days in San Fran- of flue.

Rutherford Stephens, contractor, is recovering from a severe case of the flu.

Mr. and Mrs. G. M. Bodft and son of Oregon are visiting with Mr. and Mrs. Otto Schiffner.

J. A. Carter of Mount Pleasant was a Nevada City visitor Friday night.

Mr. and Mrs. Frank Ghidotti motored to Sacramento and back from this city yesterday.

Mr. and Mrs. Aubrey Wisker, former residents now residing in Sacramento, spent Sunday with her sister Miss Alma Marsh of this city.

Louis Stein, mining man of this city, returned from Reno Thursday night from a two weeks visit to Nevada state.

Reporting that there is still plenty of snow north of town, William L. Davis was a visitor in this city today.

After having spent several days in Mendocino county because of the illness of her father there, Mrs. Elsie Willoughby of this city returned last night.

Miss Loretta Mugford and Elmer Chenoweth of Sacramento were week end guests of Mr. and Mrs. Clyde Mugford of this city. Miss Mugford is a sister to Mr. Mugford.

Charles Coble and Clifford Gillespie stopped at the Bret Harte Inn Thursday and Friday. The men came up from Los Angeles in connection with their mining interests here.

Boy Scout Bob Small, suffered a badly sprained back when he spilled from his new skis last week. Bob is able to get about now but it is only at a snail's pace.

During the heavy snow storm of the last few weeks the chimney of Mr. and Mrs. Will Young pulled lose and nearly the whole top fell, one night last week with a loud crash.

S. A. Long, mining engineer in charge of the Gracey mine east of this city, was in town on business this afternoon. His car has been snowed in at the mine for the past several weeks, but he expects to be able to bring it out by Wednesday.

Mr. and Mrs. Charles Guenther Jr. and children of Yreka, spent this week end in Nevada City with his parents, Mr. and Mrs. Chas. Guenther Sr., Their little daughter who was so seriously ill is making a good recovery.

Mr. and Mrs. Ben Tonella of Wet Hill, have both recently recovered from attacks of the flu. Both are feeling much better now.

The Rev. J. H. Jelbart of Meedville, Pennsylvania, who has been a guest relatives in Grass Valley and

H. R. Plate, manager of the Spring Hill mine between Grass Valley and this city ,returned to the Bret Harte Inn Friday.

Nevada City during the past week, occupied the pulpit of the Methodist church in this city yesterday .

Mrs. James Erway, with her infant son James Erway, Junior, is leaving the Jones Memorial Hospital for her home on Pine street of this city tomorrow. Mother and son are in the best of health.

After a six weeks visit in Stockton and Sacramento, Mr. Ernest DePratti of French Corral, came to Nevada City Thursday night. He stayed here until yesterday when he returned to his home at French Corral.

Mrs. Will Davis and daughter and son-in-law, of Sacramento, are spending some time at their house in Willow Valley. Mrs. Davis is making a good recovery from a recent serious operation.

Hundreds of people from Sacramento and the valley spent Sunday in Nevada City and vicinity enjoying the deep snow.

MINING GOLD QUICK WAY TO END DEPRESSION

Speaking before a full attendance of the Sacramento Rotary club last Thursday noon at the Hotel Senator in Sacramento, Mr. Gordon M. Bettles, Nevada City mining engineer, gave a brief history of California gold mining since 1848 and a summary of the place in the economic world that California gold mines now occupy. Mr. Bettles gave significant figures that show the important part that gold mining in this state is playing. He further stated that gold mining, when properly exploited and sanely guided, will quickly end the depression as far as this state is concerned, and the results will benefit the entire country.

Mr. Bettles is an engineer of national reputation. He is an official of the West Mines Corporation of Nevada City and an authority on mines in this district.

MINING AND AGRICULTURE

Mr. Bettles gave interesting facts and figures relating to the two great basic industries, mining and agriculture, that were revealed by the 1930 report of the Director of the Bureau of Mines. He said that the products of the mines were worth virtually half those of agriculture, that in freight tonnage general products represented 74 per cent of the traffic as against 20 per cent for agriculture and that the federal income taxes originating with the mineral industries were almost twice those paid by agriculture. Mr. Bettles also brought out that the population dependent upon mining was 14 millions and that of agriculture about 40 millions and that despite those figures, the federal appropriations for mining were less than 3 millions as against some 109 millions for agriculture.

TOTAL GOLD PRODUCTION

To illustrate the tremendous importance that gold mining is to the industry and to the entire county, Mr. Bettles said: "The mining industry in California at present is largely limited to the recovery of gold. All other mineral products are commodities and as such are subject to the common ailment of over production and under consumption. As the leading gold producing state of the Union, California's grand total since 1848 somewhat exceeds $1,800,000,000. Certain authorities maintain that only some 10 per cent of the mineable gold of the state has been produced."

Mr. Bettles also pointed out that the legislation imposed upon mining in this state is a burden on all industry affected by it. A high industrial insurance premium, he said, is added to the cost of California goods which are in direct competition with those of other states where the rates are lower. "Our Workmens' Compensation Laws are apparently right only so far as their humanitarium principles are concerned." He stated. "Their framing and administration has led to excessive costs without accomplishment of proportionate results in the objects for which they were passed. So with much other legislation passed by politicians and cranks with the good natured sanction of a people too busy making money to heed its spending. Perhaps worst of all is our Corporate Securities Act. It has greatly impeded all types of new enterprises and has signally failed to protect the investor. The law has not accomplished its purpose. The California Mining Association is backing a vigorous fight to alter or replace legislation of the type cited and in this effort it deserves support.

WORLD DEMAND FOR GOLD

"With adequate backing, the gold industry in California will profitably yield vast quantities of the precious metal. Dollars spent in developing mines will be expended to support California workers who in turn will pass them along to California business and industry thus furnishing the expansion of buying power so direly needed under existing conditions. In past depressions, the initiative of gold mine investors has invariably led to the bringing forth of new Mineral Wealth to stimulate the arteries of trade.

"Gold is in greater demand than ever and it cannot be overproduced. We have the gold and we can produce it on terms acceptable to the sanest business men. California can forget the depression and help the world to do likewise."

THREE FAWNS KILLED BY CARELESS MOTORISTS

When a representative of the Nugget went to Downieville just after the recent heavy snow he saw three dead fawns lying along the right of way where they had been killed by some passing motorist. This seems callously cruel. The poor things could not get out of the way because of the heavy snow along the sides and did not have even a sporting chance to get away. This sort of thing is wanton and careless.

It is understood that the officers charged with protecting the wild life in this section are on the trail of the killers with determination that this sort of unsportmanslike conduct shall be stopped.

RESOURCEFUL THIEF

SANTA ANA—(UP..)—The thief who stole gasoline from H. E. Hogan's automobile added insult to injury. He cut Hogan's garden hose and used it to drain the gas from the tank.

GOLD FLAT SCHOOL OPENS

The Gold Flat school reopened this morning after being closed two weeks on account of storm conditions. The school has an independent supply of water.

AIR MINDED BABY

LOS ANGELES—(U.P.) Only 4 months old, Patricia Irwin has 2100 air miles to her record. She arrived here with her parents, Mr. and Mrs. Walter Irwin from Atlanta, Ga., via airplane.

SOME LITTER OF LAMBS

RED BLUFF,—(U.P.)— There is little chance of race suicide with John Saldubehere's herd of sheep.

Simpkins, Mr. Bowman, Theodore Tobiassen, Mrs. Simon Hieronimous, W. H. Griffiths, Miss Mary Hoskins, Wm. Home, Mamie Meservey, Richard George, Calanan & Richards, J. J. Jackson Grocery, Gene Barber, Judge Tuttle, Elma Hecker, Angelo Cartocelli, Doctor Reed, Jack Wood, D. Mazetti.

Meyers Mobley yesterday said: We have endeavored to keep an accurate list of all donors, but due to the short space of time and the large number of details to be taken care of there may be errors or ommissions in our list, however we want you all to know that we are grateful to you and any over sights have been inadvertent.

The men who volunteered to construct a sled are named below. The materials for the sled were donated by the Nevada County Lumber Company and the Miners' Foundry. The sled was presented to the city by the Fire Department.

Ed. Christensen, R. Coyne, Jim Hutchison, Richard Eddy, Frank Maher, Wm. Richards, J. L. Smith, J. Fortier, John Richards, Byron Landrigan.

DISCOVERED A HUSBAND

FAIRFIELD.—(U.P.) After being married for 15 yeaers, Mrs. Mary R. Bertrocinini of Vallejo filed suit for annulment, claiming that at the time of her marriage she already had a husband.
